SUMMARY — Motivated and detail-oriented Software Developer with hands-on experience in full-stack development. Skilled in problem-solving and effective teamwork, with a commitment to continuous learning and delivering high-quality solutions.

EXPERIENCE

Intern Crowd

Mar 2023 – April 2023

Jr. front-end developer

- Created and maintained webpages using HTML, CSS, and JavaScript as a Junior Frontend Developer at Intern Crowd.
- Designed and developed user-friendly landing pages to enhance user engagement and improve overall website experience.
- Worked on various frontend tasks, contributing to the overall functionality and aesthetics of the website.

EDUCATION

B.E(I.T)	Savitribai Phule Pune University, Pune	7.53 CGPA	2024
HSC	Shri Chhatrapati Shivaji Sainiki Vidyalaya, Dhule	80.00%	2020
SSC	Shri Chhatrapati Shivaji Sainiki Vidyalaya, Dhule	73.40%	2018

PROJECTS

Venue Booking System Website

Jan 2022 – May 2022

- Designed and developed a user-friendly Venue Booking System website using HTML, CSS, and JavaScript for the front end, ensuring an intuitive user experience.
- Implemented search and booking functionalities, allowing users to easily find and book venues for their functions, and enabling easy contact with venue owners.
- Utilized Java, Spring Boot, and REST API for backend development, along with MySQL and SQL for robust database management and seamless database connectivity.

Portfolio Website

Sept 2022 - Dec 2022

- Created a simple portfolio website to showcase my skills, projects, and personal information.
- Utilized HTML and CSS to build the design and layout of the website, ensuring a visually appealing and responsive interface.
- Incorporated JavaScript to enhance user interaction and improve overall usability.

Antitheft Mobile Tracking system

July 2023 – May 2024

- Developed a mobile tracking application using Java, incorporating features like GPS-based real-time location tracking.
- includes features such as sending alerts to the registered email id and capture the photo .
- Designed with an intuitive interface that integrates smoothly with mobile operating systems.
- This project aimed to improve phone security and make it easier to recover devices.
